As we determine the cost of insurance premium, the reduction in insurance premiums was actually closer to 30%, but after factoring in those churches not paying their premiums, churches realized only a 22% reduction. It was determined that permanent email addresses for all clergy would be a significant cost savings to the conference as over 1,000 changes were made in 2007 to individual email addresses and also a heightened accuracy of addresses. It was reported at last year's Conference that the software has been changed out, but it took longer and was more expensive to change out. Mickey was hoping that the project would be cost neutral, but he reported that it will take 2 years to make up for the cost of the change in software. Mickey reported that there has been a change in auditing firms who are more equipped to hold us to much higher standards. Mickey reported that the Conference is willing to perform free audits for those churches who cannot afford them.
